Tutorial 4: Registro del estudiante
a través de una URL personalizada
del profesor

Open
P-TECH

¿Cómo se registran los estudiantes en una clase de un profesor específico?

Los profesores tienen dos opciones:

1. Utilizar un archivo .CSV para subir en masa los nombres y los correos electrónicos de los estudiantes

2. Enviar a los estudiantes una URL personalizada para que se registren ellos mismos

Instrucciones para los profesores para el registro de estudiantes

1 **Los profesores recibirán o pueden solicitar un enlace con una URL personalizada:** Después de que el profesor se registre para obtener su propia cuenta, podrá registrar a los estudiantes en la plataforma a través de una URL personalizada, que será similar a la siguiente.

https://ptech-reg.eu-de.mybluemix.net/?org=0001&mgr=069081REG

2 **Envía el enlace a tus alumnos:** Cuando hayas recibido tu enlace, debes enviárselo a tus alumnos y compartir con ellos las instrucciones de registro.

3 **Supervisa el registro:** En los informes del asesor de Open P-TECH, que los encontrarás en la plataforma pasando el ratón por encima de tus iniciales (en la esquina superior derecha), podrás supervisar qué estudiantes se han registrado o todavía tienen que hacerlo.

4 **Para obtener ayuda, entra en contacto con nosotros.** Si tienes algún problema, busca ayuda a través de la plataforma o entra en contacto con el equipo de Digital Sucess.
